

01-20-1984, p. 2

"enjoyed" ill health, as some people do. There are people, but certainly not HLRP and WSP, who enjoy being ill so that they can be fussed over & pampered and such. There are also people, but certainly not HLRP & WSP, who have "specialist-philias" - they love to go from one specialist to another with their "advanced" maladies. Such people believe that they are very special because they have such "rare" maladies or such "advanced" maladies that they have to see one specialist after another. Last night April broke her thumb while skiing at Elk Mountain; William is now ^{to} have a broken heel bone (?) repaired; Laura has her allergies; Ann has her sinus problems; the Brookvalley dogs and horses are always being rushed to Cornell or wherever for treatment. Brookvalley has its full share of medical problems, certainly. RTP was taken down to have an electroencephlogram (?) [EEG] - as soon as he came back up, Ann & William and I took our leave - HLRP & WSP stayed on. Ann dropped me off at City Hall & I went up and the crew was there. JVB had let them in - and then disappeared, only to return at 8 PM and then leave after 9:30 PM. I went to the bank & cashed a check so that the crew could be paid and returned here. I went into Oaffokil and took the lady there how beautiful the tulips are that I bought on Thursday. I told her that I had had 20 guests in my house on Thursday evening and that the tulips were the hit of the evening. She was pleased with the compliment. I came back here & changed and returned to City Hall and we (Paul & Ed & I) removed the windows from 303 and re-glosed them and re-painted them. Ray plastered the west wall of 302. When JVB arrived I told him that we had to "lay off" the crew because of a lack of funds. He told them and they understood. I believe that he has persuaded them to work for a week or two as volunteers, which is excellent. John was present for about an hour and during that time he was off in the building, exploring. He returned to the 3rd floor about 9:30 PM &
